Tender sale

A tender sale looks like a normal auction but is not exactly the same.

How does it work?

Buyers can place a bid on the website on the lots that are shown. Your bid is secret and cannot be seen by any other bidder. You can place several bids on the same lot but each bid you place must be higher than your previous bid. You will receive from every bid a confirmation by mail. Your bid is including buyers premium, dismantling and loading.

After the tender sale closes you are contacted by Orbis Auctions and you will be informed within 48 - hours whether you have won the specific lots or not.

Financial settlement

- Within 3 days after the confirmation 40% of the amount of money needs to be transferred on one of the bank accounts below.
- The rest (60% of the total amount) needs to be paid before the pick-up of the lots

Besides the terms and conditions above the general terms and conditions of Orbis Auctions are applicable.
